## **Final Report Outline**

The following outline is intended to guide you through your preparation of the final grant project report. Please follow the outline format and use the same section headings (outlined in boldface below) within the body of your report. This will facilitate a more efficient review and approval process.

The final report should be a narrative of what your organization accomplished during the implementation of your grant project and the challenges you encountered along the way. Please prepare your report on 8.5" paper, with 1" margins.

Although measurable results are an important component of your final report, there should also be a qualitative evaluation of the grant. This is your opportunity to describe the successes, challenges, and benefits of your project that can't be summarized with numbers.

You should attach any material that highlights your project accomplishments during the project period. Include such documents as photographs, flyers, newspaper clippings, meeting sign-in sheets, etc. This information may be submitted electronically to:

The information you provide in this report will help Initiative Africa report on the success of the grant program, as well as help us work with you more effectively in the future.
